MP9-N[®] / TP9

personal defense weapon

The MP9 represents the latest advancement in personal defense weapons, and is the world's lightest select-fire 9x19mm weapon system. Ideal for surveillance teams, vehicle crews, strike forces, and PSD details – the MP9 surpasses all other submachine guns in size, weight, and flexibility. This revolutionary platform is also available in semiautomatic-only operation for the civilian market as the TP9.
